DISCLAIMER

This grimoire is a spiritual and symbolic work intended for personal reflection and contemplative practice. The material presented is not meant to replace professional medical, legal, psychological, or financial advice. All practices described are undertaken at the reader’s own discretion and responsibility. The author makes no guarantees of specific outcomes and encourages discernment, ethical awareness, and personal responsibility in all spiritual work.

INTRODUCTION

This is my personal grimoire of the 22 Angelic Words of Power. It was not created through theory alone, but through experience, intuition, and quiet communion. Each word in this book carries a living current, something felt rather than merely understood.

I chose to work with Malachim words because, from the moment I traced them into sigil form, they felt alive. The lines moved with purpose, the shapes held energy, and the sigils seemed to awaken on their own. This was not a forced design but a response, an answer to an inner recognition that these forms resonated with the angelic current I was seeking.

The power within these words does not rely on volume or display. It works through quiet power: intention, focus, and presence. When spoken softly, traced in silence, or contemplated inwardly, the words reveal their strength. The sigils act as vessels, allowing the angelic energy to settle, anchor, and flow.

This grimoire is offered as a guide and an invitation. Do not rush the words. Sit with them. Let the sigils speak in their own time. Trust what you feel, for instinct is often the first language of angels.

May these 22 words open doors, bring alignment, and remind you that true power often moves in stillness.

THE POWER OF WORDS AND MAGIC

Since the dawn of time, humans have spoken, sung, and whispered to shape the world around them. Words are not mere symbols or sounds; they are vibrations, channels through which thought, will, and intent manifest in the unseen realms. The right word, spoken with clarity and purpose, can move energies, open doors, and awaken forces hidden from ordinary perception.

Magic, at its essence, is the art of shaping reality. It is the alignment of intention and action with the hidden forces of the universe. When combined with words, magic becomes precise and potent. Each syllable, each vibration, carries a seed of power, capable of influencing the mind, the body, and the unseen currents that flow through existence.

The ancients understood this. They carved runes, inscribed sigils, and uttered the names of spirits and angels, knowing that sound and symbol together could bridge worlds. Every invocation, every chant, is a conversation with the cosmos itself, a way to reach into the void and call forth what is needed.

This grimoire explores the Words of Power aligned with angelic forces, each designed to address the deepest desires of humanity: protection, health, love, wealth, wisdom, and more. By learning to speak these words with clarity, focus, and intent, you awaken the latent energies that surround and inhabit you.

The power lies not in the words alone, but in the will and understanding behind them. A careless word is weak; a word spoken with purpose becomes a key, a lever, a force that can move the world.

Through this grimoire, you will learn to invoke these Words of Power, align yourself with their symbolic energies, and manifest your desires in harmony with the unseen. Step carefully, focus fully, and speak with intent for words are not mere sound they are magic made audible.

THE METHOD OF INVOCATION

Words of Power are keys to unseen forces, amplified through breath, focus, and desire. Their effectiveness depends on precision and intent, not repetition.

Step 1: Prepare the Space

Sit or stand in a quiet place.

Light a candle or incense if desired to focus your mind.

Ensure you will not be disturbed.

Step 2: Still the Breath

Inhale slowly through the nose.

Exhale through the mouth.

Repeat three times, imagining your energy centering in your chest.

Step 3: State Your Purpose

Whisper a clear intention in one sentence.

Examples:

“I seek protection.”

“I call wealth to my path.”

“I release all burdens.”

Step 4: Speak the Angel’s Name

Whisper the angel’s name once, softly.

Focus on the symbolic power it represents.

Step 5: Vibrate the Word of Power

Speak the Word of Power slowly, letting it resonate in your chest.

Repeat three times per session (up to five for urgent needs).

Enunciate vowels fully to strengthen the vibration.

Visualize the symbolic power manifesting with each repetition.

Step 6: Seal the Working

Place your hand over your chest.

Speak: “It is done. The door closes, the power remains.”

Sit quietly for a moment, feeling the energy settle.

UNDERSTANDING ANGELIC SIGILS

Sigils are more than symbols. They are visual keys condensed echoes of the angelic forces they represent.

A sigil acts as:

A magnet that draws the angelic vibration

A map that guides your intention

A doorway between the visible and invisible realms

A signature, carrying the essence of the angel itself

Each sigil in this grimoire is unique, designed to mirror the energy pattern of its angelic power.

The curves, angles, and lines of a sigil are not random.

They are created to:

Hold the vibration of the Word of Power

Focus your mental and spiritual energy

Help you align with the correct frequency

A spoken Word calls the angel.

A sigil anchors the angel’s presence.

HOW TO ACTIVATE AND USE SIGILS

Sigils work when they are activated, meaning they are awakened through intention and focus.

Breath Activation

1. Look at the sigil for a few seconds.
2. Inhale slowly.
3. On the exhale, whisper the angel’s name.
4. Visualize the sigil glowing faintly.

This is the simplest and most beginner friendly method.

Tracing the Sigil in the Air

1. Raise your index finger.
2. Trace the sigil in the air as if drawing light.
3. Speak the Word of Power once.
4. Imagine the sigil appearing before you, floating in light.

This method is highly effective for quick invocations.

Drawing the Sigil on Paper

1. Draw the sigil on clean white paper.
2. Place your hand over it.
3. Whisper the angel’s name once.
4. Speak the Word of Power three times.
5. Fold the paper and keep it with you, under a pillow, or on an altar.

This method is ideal for long term workings.

Visualization Activation (No Tools Needed)

1. Close your eyes.
2. Visualize the sigil in your mind glowing with light.
3. Speak the Word of Power slowly.
4. Imagine the sigil expanding, then returning to stillness.

Use this when you cannot draw or speak.

How to Know the Sigil Is Active

You may feel:

warmth in the chest

tingling in the hands

a shift in mood

sudden calm

a pressure or presence

These are normal responses.

ETHICAL GUIDELINES & WARNINGS

Angel aligned magic responds to clarity, sincerity, and responsibility. To keep your workings safe and effective, follow these principles:

Never use Words of Power to harm

This includes manipulation, revenge, intimidation, or forcing someone’s will.

Angelic forces withdraw from such intentions.

Do not invoke when emotionally unstable

Extreme fear, anger, or desperation creates distorted energy and weakens results.

Wait until your breathing is calm.

Avoid mixing too many powers

Use only one angelic force per session.

Mixing energies confuses your intention.

Do not obsess or repeat excessively

Repeating dozens of times or invoking multiple times a day shows desperation.

Calm belief is stronger than force.

Respect the timing of results

Angelic energies work subtly and intelligently.

Do not panic if results take time, most manifest gradually.

Never make promises or bargains

Angelic magic does not require payment or sacrifice. Your sincerity is the offering.

ANGELIC WITNESS

Angels appear in many sacred scriptures as messengers, helpers, and witnesses of the Divine. They are not shown as beings to be worshipped, but as servants who carry out God’s will, offer protection, and deliver guidance. These writings remind us that angels stand between the spiritual and human worlds, quietly observing and fulfilling their roles with obedience and purpose. This section presents selected passages from holy texts that speak of angels. These verses are shared with respect and care, not as spells or invocations, but as spiritual references. They are included to show how angels are recognized across traditions and to honor their presence as witnesses to divine truth throughout time.

Psalm 91:11

“For He will command His angels concerning you to guard you in all your ways.”

Qur’an 35:1

“Praise be to Allah, Creator of the heavens and the earth, who made the angels messengers with wings—two, three, or four.”

Daniel 6:22

“My God sent His angel and shut the mouths of the lions.”

Talmud, Berakhot 60b

“A person is accompanied by angels wherever they go.”

Zohar (Jewish Mysticism)

“Angels are formed from human deeds; each good act creates a holy messenger.”

1 Enoch 40:1

“I saw four angels who never sleep, guarding the throne of God.”

Word of Power

Repetitions: 3 per session (up to 5 for urgent needs)

Frequency: Once daily

Duration: 7 - 21 days for long term results

Sealing Phrase: “It is done. The door closes, the power remains.”

SIGNS THAT YOUR INVOCATION IS WORKING

Results can be physical, emotional, or external.

Common signs include:

Emotional Shifts - Sudden calm, warmth, clarity, or relief.

Synchronicities - Numbers, dreams, symbols, or messages aligning with your intention.

Opportunities Appearing - A sudden opening, chance, message, or idea related to your desire.

Inner Guidance - New insights, intuition, or knowing what to do next.

Gradual Transformation - Slow but strong shifts in behavior, mindset, or environment.

MY EXPERIENCES WITH THE ANGELS

My first personal experiences with the word of power Adorahen, which I associate with attraction, union, and harmony. I chose to work with this word late at night, when the world was quiet and my mind was calm, a time I find most suitable for subtle workings.

Before sleep, I invoked Adorahen with focused intention. I did not force desire or imagination, but simply allowed the word to resonate within me. I traced its sigil, spoke its sound softly, and held the feeling of harmony rather than expectation. When the invocation felt complete, I released it and went to sleep.

That night, my dream was vivid and gentle. I found myself surrounded by beautiful women, not in chaos or excess, but in an atmosphere of warmth and mutual attention. They were drawn toward me naturally, as if my presence itself invited connection. There was no struggle, no grasping; only a sense of being noticed, welcomed, and desired.

Upon waking, the dream remained clear in my memory. More importantly, the feeling of it lingered: confidence, alignment, and inner harmony. I did not interpret the dream as a literal promise, but as a symbolic response, a sign that the invocation had been received and was beginning to work on subtle levels.

In my practice, such dreams often arise when an operation touches the deeper layers of the self. Attraction, after all, begins within. Adorahen did not simply project desire outward; it seemed to adjust my inner state, allowing harmony to form first in the unseen realm.

I record this experience not as proof, but as testimony. Each practitioner will receive signs in their own way. For me, this dream was a quiet confirmation that these angels responds gently, through alignment rather than force, and that its power moves first through the language of the subconscious.

My Second Experience with the Angel Ravaelun.

In recent days, I have been experiencing stomach pain, so I invoked Ravaelun for the release of this discomfort. At first, I believed the pain was caused by my diet, I had been eating too much fried and junk food, such as fried chicken head and neck. I also considered that smoking might have contributed to it, so I refrained from both.

One evening, after sleeping, I woke up in the middle of the night with the stomach pain returning, accompanied by an intense feeling of cold. I then realized that the electric fan was directly pointed at me. After turning it off, the pain gradually went away.

This experience reminded me that while we wait for the angels to work their magic, we must also be mindful of our physical actions and surroundings. Spiritual assistance and personal awareness go hand in hand.

What you truly believe can manifest. Claim it through faith, intention, and by calling upon the names of these angels.

My third experience with the angel Phoranel stands as living proof within this grimoire.

Before the sigils existed, I possessed only the names of the angels. I invoked Phoranel seeking artistic energy and innovation, and it was then that the sigils of these angels arose in my mind.

For me, this work is a success, not only because it is original, but because it has the potential to truly help us in our lives. Each angel carries a distinct power, and through invocation we may align with what we genuinely need in the present moment. Whether it is love, prosperity, guidance, or clarity, our needs differ but the angels respond according to what the soul seeks.

Fourth Experience with the Angel Kaldorim.

This was my fourth experience working with the angel Kaldorim. I invoked this angel with a very specific intention: money - actual cash, not abstract opportunity or symbolic gain.

The result came sooner than I expected.

Not long after the invocation, my parents sent me money through Gcash. This was unusual. They are far away, and they had never sent me money in this way before. The timing stood out clearly in relation to the working.

It is possible that practical circumstances played a role, they would not be with me for Thanksgiving, but regardless of the reason, the outcome aligned precisely with my intention. What I asked for was cash, and cash is what manifested.

I do not present this as proof, but as personal experience. For me, this reinforced an important pattern in angelic work: results often arrive through ordinary channels, yet in ways that are timely, unlikely, or unexpectedly aligned with the request.

This experience strengthened my trust in focused intention, clarity of desire, and the subtle cooperation between spiritual work and everyday life.

My fifth experience is with the angel Mnemoniel.

At the time, I was teaching an apprentice in drumming who was a complete beginner. I wanted to help him learn faster and more effectively, so I invoked Mnemoniel to assist me with memory, recall, and clarity, specifically to remember what truly mattered when I myself was new to drumming.

After the invocation, I began recalling details I had long forgotten, the foundational beats, the essential drum rolls, and the specific exercises that accelerate learning in the early stages. These memories didn’t come as something new, but as something returned clear, practical, and immediately useful.

When the time came for my apprentice to play live for the very first time, I had no great expectations. Yet the outcome surprised me deeply. His playing was clean, controlled, and confident, far beyond what I would expect from a beginner. It sounded as if he had been playing for years.

Whether through sharpened recall, improved teaching clarity, or heightened focus, the result was undeniable: the learning process had become smoother, faster, and more effective than I had anticipated.

This experience reinforced for me the quiet power of Mnemoniel, not as a force that replaces effort, but as one that restores memory, sharpens guidance, and aligns knowledge with action.

THE LETTERS OF ANGELS

The Malachim script is often called the alphabet of angels. Its forms are drawn from Hebrew, yet refined into shapes that feel lighter, more fluid, and more symbolic than ordinary letters. In this transformation, language moves away from common speech and toward sacred geometry, becoming a bridge between thought and spirit.

Malachim is traditionally associated with angelic communication because its letters are not meant merely to be read, but to be contemplated. Each stroke carries intention. Each curve holds vibration. When written slowly and with focus, the letters function not only as symbols, but as vessels for subtle force.

In this grimoire, Malachim is used not as a rigid historical system, but as a living script. My approach is intuitive and experiential. I chose Malachim because, when forming the sigils, the letters felt responsive, almost aware. The symbols did not feel inert. They seemed to guide the hand rather than be controlled by it. This sense of movement and recognition is what confirmed their suitability for angelic work.

Unlike ordinary writing, Malachim letters are not meant to convey meaning through grammar alone. They communicate through form, resonance, and presence. When combined, they create sigils that operate beneath conscious language, speaking directly to instinct, imagination, and subtle perception. In this way, the sigil becomes a meeting point between the conscious will of the practitioner and the unseen intelligence being invoked.

Historically, Malachim appears in the writings preserved by occult scholars such as Heinrich Cornelius Agrippa, where it is described as a sacred alphabet aligned with celestial forces. However, angelic work does not depend on strict tradition alone. Angels respond to clarity of intention, sincerity of heart, and symbolic resonance. A script that awakens recognition within the practitioner becomes a valid channel.

For this reason, the Malachim letters in this grimoire should be approached as living symbols rather than fixed doctrine. Do not rush to memorize them. Instead, trace them slowly. Observe how they feel. Notice which shapes draw your attention or stir sensation. Over time, the letters will begin to function not as characters, but as gateways.

When written with calm focus, Malachim letters act as condensed prayers. Each sigil becomes a silent invocation, holding the angelic presence even when no words are spoken. This is why they are especially suited for quiet power, subtle workings, and operations done inwardly or in stillness.

Use these letters with respect, not fear. With openness, not force. Let them assist you in aligning with harmony, clarity, protection, and joy. In doing so, you step closer to the language through which angels are said to watch, guide, and answer from beyond ordinary sight.

ON THE SOURCE OF THESE ANGELIC POWERS

This grimoire is a personal work of spiritual practice and reflection. The system of the 22 Angelic Words of Power, including the angelic names, words, sigils, and methods of invocation, does not arise from any single historical grimoire or established angelic hierarchy. These elements were shaped through lived experience, intuition, meditation, and quiet inner communion. Though inspired by enduring traditions of angelology, mysticism, and sacred symbolism, this work makes no claim to ancient authority, formal lineage, or canonical status. The angelic names and Words of Power presented here are not translations from Hebrew, Latin, or other sacred languages. They are symbolic sounds and forms, created to serve as vessels for intention, alignment, and subtle resonance rather than fixed doctrine.

Passages drawn from sacred texts including the Bible, the Qur’an, the Talmud, the Zohar, and other writings are included with respect and care. They are offered not as spells or commands, but as witnesses to humanity’s long relationship with the angelic realm across cultures and time. This grimoire stands as a living and personal framework, not a rigid system to be followed without reflection. Those who work with it are encouraged to do so with discernment, ethical awareness, and respect for free will. The powers described within do not respond to force or domination, but to clarity of intention, sincerity of heart, and inner stillness. The source of these angelic powers is not claimed as external authority alone, but as a meeting point between symbol, intention, and the unseen intelligence that answers through alignment rather than command. What is written here is offered not as absolute truth, but as a record of practice, insight, and experience.

THE FINAL SEAL

As you reach the final page of this grimoire, remember this, the 22 Angelic Words of Power are not merely sounds or symbols. They are living currents, threads of intention woven into the unseen fabric of existence. You have walked through their meanings, spoken their vibrations, and felt their presence move through your inner world.

Yet this work does not end here. Every invocation you whisper, every symbol you trace, strengthens the bridge between your mortal will and the subtle realms that answer it. Growth in this path is not measured by grand displays of power, but by the steadiness of your spirit, the clarity of your intent, and the purity of your desire.

Carry these words with humility. Use them with purpose. Let them guide you toward healing, clarity, protection, opportunity, and transformation; never toward harm or dominance. Angelic power responds to truth, not force; to sincerity, not desperation. If there is one lesson to take from this grimoire, it is this: Power lives in the one who listens. Magic awakens in the one who acts.

So step forward with quiet certainty. Continue your practice. Let these 22 words become companions in your moments of darkness and your moments of rising. Speak them when the path is uncertain, trace them when your heart is heavy, and hold them when you need to remember your place between earth and the unseen. Your journey continues beyond these pages. May the currents you have awakened walk with you. In silence, in strength, and in light.

NEXT STEPS FOR YOUR PRACTICE

After completing this grimoire, continue to engage with the Words of Power daily. Begin each day with a brief invocation or meditation on one word, allowing its energy to guide your intentions. Keep a journal to note your experiences, insights, and any subtle shifts in awareness. Reflect regularly on how these practices influence your thoughts, actions, and interactions, deepening your connection to quiet power and the angelic energies. Over time, your continued practice will transform these words from study into living, personal guidance.
